

Jason Breach Woodturning Demonstration

When: June 4th

Location: Woodcraft

11160 Beach Blvd.

Suite 121

Jacksonville, FL 32246

Time: 9-4

Description: [Jason Breach](#), an experienced woodturner from the UK will be putting on a full day demo at the Jacksonville Woodcraft on Saturday, June 4th hosted by the Northeast Florida Woodturners Association. We'll order lunch in for \$10/person.

While we have some chairs, it would be worthwhile to bring your own to ensure comfortable seating.

He will also run a day long Hands On session on Sunday, June 5th.

The demonstration will feature Jason doing a series of his signature, finely crafted turned boxes.

Jason is particularly well known for his pagoda boxes.

However, we can expect that he will demonstrate several other varieties as well.

He is also planning to demonstrate the turning spheres and his Orbital Arc.

The Hands On session is limited to 6. The cost will be \$100 for the session from 9-3:30. The Hands-On will also be at Woodcraft. Participants need to bring:

- Their own tools
- A chuck with a 1" insert
- 3"x3" spindle blank at least 8" long

We will be using the Woodcraft General lathes. However, you can feel free to bring your own lathe if you would like.
